**FOR THE YEAR ENDING  
DECEMBER 31th, 1915**

ROBERT V. SWEET, MAYOR

Twenty-fourth Annual Report

OF THE

CITY OF ROCHESTER

---

NEW HAMPSHIRE

For the Year Ending December Thirty-first  
Nineteen hundred and fifteen

Rochester Printing Company

# Inaugural Address

BY MAYOR ROBERT V. SWEET

---

*Gentlemen of the City Council :*

My first obligation is to the public spirited men of this city who have so many times, however mistaken in their judgment, urged me to be a candidate for the office of Mayor.

I have lived in Rochester long enough and have been sufficiently active in my efforts with our people, to know who of our citizens are most unselfishly interested in its welfare. Therefore I first want to thank those men from the bottom of my heart for their confidence in me and assure them that it will be my unstinted endeavor to show my deep appreciation of their good will and to justify their expectation so far as in me lies.

We shall not be immune from criticism ; in fact, honest criticism from people whose judgment we respect, we invite, for, in this way we shall be helped to give better and more efficient service. Chronic criticism from people whose chief employment it is should disturb or distress none of us. It is so much easier to criticise than it is to construct.

To me the idea of an inaugural address is a farce if it deals only in generalities and does not really give something tangible in the way of specific recommendations. I shall, however, not presume to advise you who are in a much better position than I to know the present

needs of the various departments, but I do hope by active consultation and coöperation with you to be able to make from time to time suggestions that may be helpful to us in arriving at correct conclusions in our work.

Before we take up for consideration the different phases of the city's needs I am sure you will join with me in more than an invitation; in fact, in an urgent request to the members of that active and very important organization in our city, viz., the Chamber of Commerce to coöperate and counsel with us in any way that may inure to the benefit of the general public.

## FINANCES

### FINANCIAL STATEMENT, DECEMBER 31, 1915

#### Debit

Outstanding notes	\$188,067 25
Accrued interest on notes	3,264 99
Sewer bonds	6,500 00
Interest on sewer bonds	113 75

Due on Gonic sewerage	1,028 36
Due on Isinglass bridge	545 20
	<hr/>
	\$265,221 41

#### Credit

Boston & Maine R. R. stock	\$ 800 00
Amt. due on sundry accounts	516 57

## CITY OF ROCHESTER

5

Amt. due on Collector's list, 1911	\$ 136 74
1912	517 81
1913	530 01
1914	3,791 42
1915	27,532 66
Cash in hands of treasurer	5,401 93
	<hr/>
	\$39,217 14
Indebtedness, exclusive of water bonds	\$225,994 27
Water bonds	160,000 00

We recall, with some pride, that twenty-one years ago when we were paying four and five per cent on the city's notes aggregating nearly one hundred thousand dollars, Rochester was one of the very first cities in the United States to issue bonds in very small amounts and sell them over the counter, thereby serving the double purpose of making them available as safe investments to our own town people of small means and saving considerable amounts to the city. Today this is a very general practice. In eighteen ninety-five the city's indebtedness exclusive of water bonds was one hundred and two thousand, ninety-six dollars and thirty-two cents. Now it is two hundred and twenty-five thousand nine hundred and ninety-four dollars and twenty-seven cents. The amount in floating notes is one hundred and eighty-eight thousand, sixty-seven dollars and twenty-five cents. It has been the custom of the council to vote to refund notes, so that the original purpose of the loans is lost of track and therefore it is not always possible to tell just when a certain debt is cancelled. I hope in some way we may classify these notes in a manner that such uncertainty will be no longer possible.

The "pay as you go" policy should be adhered to as closely as possible.

The annual budget should be so prepared that it may cover all the annual expenditures of the year and in case of some unusual and unforeseen requirement presenting itself the council should arrange for this need in specific, serial, time notes, covering only a very short period. In the matter of appropriations, it seems to me, we must increase them in some departments and decrease them in others, exercising great care in the aggregate recommended that our tax rate may not be increased.

### PUBLIC BUILDINGS

Our City Hall and Library are a source of pride to us all. The schoolhouses in the main are in splendid condition and reflect great credit upon those who gave the subject of their construction so much time and thought, and through whose foresight we are now in possession of such commodious buildings. I especially speak of foresight for two reasons,—first, to have you recall that when plans were being formulated for the Gonic schoolhouse there was much opposition to its proposed dimensions—in fact some of the men from Ward Three were severely criticised for their desire to have a building so unreasonably large that "it could never be filled." How fortunate for us now that wise counsel prevailed. Visit this school and you will find that we for some time have been obliged to use the small library for one of the grades. Secondly, that you may realise we shall very soon be called upon, on account of the rapid growth of our city, to remodel, enlarge or rebuild the Maple street school. When that time comes we shall be much less likely to err on the side of "penny wise and pound foolish" if we recall that not so long ago that

very building did duty as Rochester's high school and was adequate to its needs. Since then we have built four large schools, all but one of which are already overcrowded, and we make a great mistake, when the change is made, if we do not plan for at least twenty-five years in the future.

I beg to digress at this point just enough to commend most heartily the public spirit which has been manifested recently on the part of many of our citizens in improving their premises,—in making possible the various attractive little parks, in many substantial improvements to business blocks on and near our square, and to appeal to some of our most respected citizens who own property in and about the center of our city to emulate this spirit. May we not hope to see some of these blots on our landscape take on a semblance of respectability during the coming year?

Only by cooperation can we beautify the city, for one man, by thoughtlessness or indifference, can mar the appearance of an entire locality in spite of the efforts of all his neighbors.

## SCHOOLS

This department is indisputably the most important which any city has to consider, and merits our keenest interest and most honest efforts. To our youth of today must we look for our citizens of tomorrow. Since the atmosphere of a community depends wholly upon the character of its people it behooves us to look well to the development physically, mentally, and morally of the vast number whose future we can so largely mould. The school supplements the home in the matter of character building and in too many cases is the only source of training for life which the child has. Clearly

then the school must be more than a place in which to learn the three R's, essential though these may be. It must be a source of associations and inspirations which shall deepen and broaden their natures. The atmosphere must be kept clean; the influence wholesome. During school days we pass through the most impressionable period of our lives and we all know how vastly our whole life has been affected by the all-powerful influence of that certain teacher whose image never forsakes us. A statesman's definition of a college,—"Mark Hopkins on one end of a log and James A. Garfield on the other," was a wise one. We are proud of our teaching force and I am sure there is not a man here who, if he gives the subject any thought, believes we have one who is overpaid.

It should be our constant aim to improve in every way possible our public school system. This is the one department of our city government where we can least afford to be parsimonious.

Everything else can await a full treasury for its accomplishment, but children are of school age but once, and we must mould these citizens of tomorrow or our opportunity is gone forever. I therefore bespeak for this department a broad-minded and generous consideration.

## POLICE

It seems to me the record in this department has been exceptionally creditable during the past year and merits our commendation. No council has a right to reject a faithful police official, or to reelect an unfaithful or inefficient one. An honest officer of the law is compelled to face hazards at any and all times for our protection; the hazard of a reelection he should not be required to meet. The force of public opinion is the

greatest power in any government. Sometimes we think it sleeps, but not so. It was never more awake than now. Any public official who has been faithless to his trust does not dare to face it. To be more concrete—we all know of the very few infected spots in our town whose proprietors have generally successfully defied the men whose sworn duty it was to clean them out. Is the police officer to blame? No sir! We are the guilty ones unless we see to it that no man dare be a candidate for this position whose past record, public or private, does not warrant us in the assumption that he will make good. All subordinates in this department are accountable to the Chief and if there are any delinquencies among the former the latter should and must be held responsible.

The protection of the travelling public must be safeguarded, and in this age of auto-speeding, a more rigid scrutiny and severe treatment must be exercised to remove this menace from our streets. A police official need not make himself offensive, or take himself too seriously, to be successful; in fact, quite the reverse obtains. He should be always courteous, but not cowardly; forceful, but not facetious. He should be the ever-ready helper of every innocent in trouble, and the fear of every oft-repeated guilty culprit who too many times has found him easy.

## HIGHWAYS

This department requires much constant study and careful thought. Today we do not build roads as we once did with little consideration as to the manner and material and only to be sure we had no unexpended balance at the end of the year; rather, we must find that street or highway most travelled and most in need

of repair and when that is determined we must all join our efforts to see that it is done in the best possible manner at the lowest possible cost. It seems to me that in some instances the expense has been out of ratio to the amount of territory covered, and therefore we must use different material in order to complete the work which is so sadly needed. Summer street to the railroad crossing, North Main street from the post office to the stone bridge greatly need attention. These, together with that part of Wakefield street not already improved should be repaired during this year. About one-sixth of Wakefield street has been cemented at a cost of eight hundred and seven dollars, not including the cost of curbing, which for one thousand, nine hundred and thirty-four linear feet is seven hundred and twenty-eight dollars. This work has been done well and at a very low cost considering the material used, but, before this is carried further, we must decide if a less expensive material will not meet our needs.

The purchase of a cement mixer was a wise move and the city saves much by its use and in the fact that our efficient street commissioner supervises and operates it with his regular crew.

Our improvements must not be confined to our city streets alone, but a proper amount is due to the chief thoroughfares leading in various directions. In any proper road construction drainage is of prime importance and if this feature is neglected however much time and money we may spend, and flatter ourselves that we have reached the acme of success, we are early doomed to disappointment. How much money has been expended on Horse hill during the past twenty years, and not till very recently did we make any lasting improvement. There are three or four spots, only a few rods in length, where repairs have many times been

made and drainage ignored, that, in the spring of the year nearly cut us off from Meaderboro and Barrington. These few bottomless pits have been known to our ancestors and to all of us, who use the highways at all, and still they exist. Why? Because every year some money is expended on them to absolutely no advantage because it has not been done right. Let us see to it that these shall be forever removed at the earliest possible moment, if feasible before the last of March when they are quite impassable.

My first request of this department is to make an exhaustive investigation of the relative cost of crushed stone. This is so essential a factor in all our road building that we must know our cheapest source of supply, — whether we purchase a ledge, do our own crushing and hauling, or buy it delivered by rail close to its place of use. If it should be decided that we can crush stone cheaper than we can buy it already crushed and delivered, why is it not a good business proposition to procure the best available ledge and keep our men employed during the winter crushing stone to be used in the following summer months?

### SHADE TREES, PARKS AND COMMONS

Through the foresight of our worthy ancestors Rochester's main streets are the cynosure of all eyes on account of the noble elms that adorn their borders. Do we show ourselves worthy of this invaluable forethought; an asset incalculable in worth to us when we sit quietly by and do not lift a finger to preserve them to ourselves and our children? They are dying by scores every year and whether by gas, electricity or neglect, is it not possible to determine the cause and compel its removal? Expert advice may be needed in this department, if so, let us have it.

We note and appreciate the fact that various women's organizations have appropriately celebrated Arbor Day.

Through the generosity and most praiseworthy public spirit of Mr. C. A. C. Hanson we are, for all time to come, in possession of a fine public park along our river bank. May we not see to it that steps soon be taken to secure to ourselves a continuation of this park system along the banks of the Cocheco in our wonderful Intervale? There are few cities with such beauty spots so near its heart, and do we not owe it to ourselves to secure them before they are ruined by the woodman's axe? The Boston and Maine railroad has evinced a commendable spirit by expressing a desire to cooperate with us in the way of beautifying its idle areas; let us encourage this project by meeting them half way.

## WATER AND FIRE

These departments are under capable and efficient management. There are some changes, however, which might be advantageous to the city. For some reason the annual cost of new hose has been excessive. This expense can be considerably reduced by some plan to better preserve the hose.

In this department the ordinance has been so revised that the expenditure of its funds rests entirely with this committee. So far as I am aware this is the only department so empowered, and meets with my disapproval. In this connection would it not be well for the Council to limit any and all departments in their purchases to a specific amount? You have provided for a purchasing committee, which is well. In all purchases above a limited figure this committee should be held responsible and do this work. All purchases made

below this limit should be made through the regular order blanks procured from the city clerk. This facilitates filing and bookkeeping and makes all small purchases easily accessible and open to any member of the council or to the public.

The city's horses, if it can be arranged, should all be cared for by one man and this person a member of the fire department, taking care of the fire station, that he may be available as a member of the regular fire squad in all emergencies. The janitors of the city building should also be members of the fire department and, if feasible, one of them sleep in the fire station. This arrangement would save considerable expense to the city and secure to the department four permanent men through the day and three by night.

## PUBLIC LIBRARY

Supplementary to our public school system and one of the most valuable institutions in the city, both in the training of the rising generation and in the cultivation and education of the entire community is our Public Library. Few realize, perhaps, the extent of the work which the library does as an aid to the schools both for teachers and pupils. Its reference department often resembles a schoolroom in the attendance of boys and girls. It is to the library also that our various literary clubs look for their reading matter in pursuing their studies. In the twenty years since the library was founded as a free public institution, its number of volumes and circulation have more than trebled. This necessitates a great increase in administration expenses, while the beautiful library building compels a considerable annual expenditure for its maintenance. Of course, such fixed charges must first be met out of the appro-

priation and it is only the surplus which can be expended for new books and for the growth and development of the library. From the beginning its trustees have been among our most prominent and honored citizens. They have, without exception, taken a vital interest in the institution and have managed it with great economy and efficiency. The librarian is one of the most competent in the state. Therefore, the larger the appropriation for this department, the more can be spent in increasing its usefulness, resulting in direct benefit to a very large proportion of our citizens. I feel that it should be treated as liberally as the condition of the city's finances will permit.

### IN CONCLUSION

Automobile hire in the recent past has been excessive. In the fire department the past year, one hundred and five dollars. In the water department, thirty-six dollars. In the police department, one hundred and eighty-eight dollars. Highway department, twenty-nine dollars.

In those departments where the salary contemplates and includes the furnishing of one's own conveyance it means just what it says. And this must be adhered to.

The city ordinances are explicit in their requirements of all its officials and they shall be held strictly accountable each for the work in his own department. It is the earnest desire of the council and myself that the man at the head of each department shall take a personal pride and interest in his work ; that he shall be honest, aggressive, and efficient, thereby reflecting credit upon himself, the council who elected him, and the people whose servants we all are.

Gentlemen, this first meeting is the most important one we shall hold during the year and let us not put ourselves under a cloud at its inception. Few men are or can be efficient Street Commissioners, City Marshals, or City Solicitors. When these have given evidence of their remarkable and praiseworthy service you or I have no right to turn them down. Politics, partisanship or pledges shall not prevent this city from that which it justly deserves and demands. Pledges made that shall deprive the city of the very best service obtainable, proven by experience, better be broken than kept. We are not acting in a private capacity and those of us who have taken the trouble to ascertain what the public expect and demand cannot have any doubt as to our duty in this matter. Am I transcending my rights when I make this earnest appeal for our community when, at this time, it is only through me, their representative, that they can speak? If so, I misinterpret my duty. May this council honor itself, honor me, and honor our beloved city, by a unanimous support of every faithful official, and thereby make him even more zealous to continue his good work.

# Important Resolutions and Orders

Passed by the City Council

---

## ANNUAL APPROPRIATION

Resolved by the City Council of the City of Rochester :

That for the support of the various departments for the year 1916, there be raised by taxation the sum of one hundred fifteen thousand, three hundred sixty-three dollars, and sixty-three cents (\$115,363.63) and the assessors are directed to assess that amount with such overlay as may be thought necessary.

Passed January 18, 1916

## TO HIRE MONEY TO RFFUND NOTES

Resolved by the City Council of the City of Rochester :

That the Mayor, City Treasurer and City Clerk be authorized to hire on note or notes of the city, an amount not exceeding fifty thousand dollars, for the purpose of refunding notes now outstanding against said city as called for.

Passed January 6, 1915.

## HIRING IN ANTICIPATION OF TAXES

Resolved by the Mayor and City Council of the City of Rochester :

That the Finance Committee be authorized to raise

on note or notes of the city, a sum of money not exceeding fifteen thousand dollars (\$15,000) in anticipation of taxes, providing it is necessary to do so.

Passed January 6, 1915.

### PRINTING CITY REPORTS

Resolved by the Mayor and City Council of the City of Rochester :

That the City Clerk be instructed to prepare for the printer all matter that is to go into the city reports, and that the Committee on Printing be instructed to solicit bids for printing city reports and that they be let to the lowest responsible bidder.

Passed January 6, 1915.

### TO RAISE MONEY BY TAXATION IN SPRINKLING PRECINCT

Resolved by the City Council of the City of Rochester :

That the sum of twelve hundred dollars (\$1,200.00) be assessed and raised by taxation for the year 1915 on taxable property within the limits of the sprinkling precinct in accordance with the act creating said precinct.

Passed January 19, 1915.

### TO CREDIT MONEY RECEIVED FROM SALE OF CITY LOT

Resolved by the City Council of the City of Rochester :

That twelve hundred dollars (\$1,200.00) of the sum received from the sale of the city lot off Lafayette street, be placed to the credit of the Miscellaneous

department, and that the balance of said sum, or two hundred dollars (\$200.00) be placed to the credit of the Deep Sewer department.

Passed January 19, 1915.

## TO PROVIDE EMPLOYMENT FOR THOSE APPLY- ING FOR AID

Resolved by the City Council for the City of Rochester :

That the sum of one hundred dollars (\$100.00) be, and the same is hereby appropriated to be placed at the disposal of the Overseers of the Poor to provide employment for those who are, or who may be dependent upon the city for aid, and who are able to perform some work, and be it further resolved, that the Mayor, with the unanimous approval of the Overseers of the Poor, is hereby authorized to designate the department in which employment may be given in such cases and to have the general supervision over such employment, and that the same shall be paid out of the regular appropriation for the Miscellaneous department.

Passed February 2, 1915.

## PROVIDING CHECKING RACKS FOR OPERA HOUSE

Resolved by the City Council of the City of Rochester :

That the Committee on Public Buildings, with the approval of the manager of the Opera House, be authorized to suitably equip the room in City Hall, known as Gentlemen's Room, as a check room, at an approximate expense of fifty dollars, to be paid from the Opera House department.

Passed February 2, 1915.

RELATING TO THE SALARY OF THE CHIEF  
ENGINEER OF THE FIRE DEPARTMENT

Be it ordained by the City Council of the City of Rochester as follows :

Amend paragraph 16 of section 1, Chapter XXIV, by striking out the words "sixty dollars per month" and inserting in place thereof the words "seven hundred and eighty dollars per year" so that said paragraph as amended shall read as follows :—"The Chief Engineer of the Fire department, seven hundred and eighty dollars per year, payable monthly from the Fire department."

Passed March 12, 1915.

TO PROCURE PLANS FOR GATE HOUSE AT  
ROUND POND

Resolved by the City Council of the City of Rochester :

That the Committee on Water Works procure plans, estimates and specifications for the the building of a new gate house at Round pond.

Passed May 4, 1915.

TO PROCURE PLANS FOR NEW BRIDGE ON  
ROCHESTER NECK ROAD

Resolved by the Mayor and Council of the City of Rochester :

That the Committee on Roads, Bridges and Drains be authorized to procure the services of a competent engineer; that said engineer shall furnish plans and

cost of constructing a bridge over the Isinglass river on Rochester Neck road with new abutments, said bridge to be of such design as the Committee shall consider for the best interest of the city ; said Committee to report full details upon which said Council may provide by special appropriation a sufficient sum for the construction of the same including cost of investigation.

Passed May 4, 1915.

### TO INSTALL SEWERAGE IN GONIC VILLAGE

Resolved by the City Council of the City of Rochester :

That sewerage be installed on the north side of the river in Gonic village during the year 1915, sewerage to extend as far on Church street as the residence of the late George B. McElwaine.

Passed June 1, 1915.

### RELATING TO CONSTRUCTION OF ISINGLASS BRIDGE

Resolved by the City Council of the City of Rochester :

That the Committee on Finance be authorized to hire on note or notes of the city a sum of money not exceeding three thousand dollars (\$3,000.00) for the purpose of constructing a bridge over the Isinglass river on the Rochester Neck road, and that the Committee on Roads, Bridges, and Drains be authorized to complete the same as per plans and specifications submitted by Edward N. Sheffield, civil engineer, of Nashua, and according to the design approved by said Committee on Roads, Bridges and Drains, and at a cost not to exceed the amount appropriated. Amended as follows :—That the

Committee have the job done by contract, advertise for bids and let the job to the lowest responsible bidder and reserve the right to reject any and all bids, also that the notes be payable as follows: One-third of the amount raised to be paid two years from date, one-third three years from date, and one-third four years from date.

Passed July 6, 1915.

## RELATING TO BUILDINGS IN FIRE PRECINCT

Be it ordained by the City Council of the City of Rochester as follows :

Chapter IX, Section 1 of the Ordinances of the City of Rochester is hereby amended by inserting after the word "incombustible" in the fifth line of said section the following:—"nor hereafter re-cover the roof of any dwelling house or building with combustible material," so that the part of said section as amended shall read as follows :

Section 1. No person, without the consent of the City Council, shall hereafter erect, or cause to be erected any building unless the walls and roof shall be incombustible, except dwelling houses, the roof of which shall be incombustible, nor hereafter re-cover the roof of any dwelling house or building with combustible material, within the following limits of the city, to wit :

Passed July 6, 1915.

## PROVIDING FOR PAYMENT OF GONIC SEWERAGE

Resolved by the Mayor and City Council of the City of Rochester :

That a sum not exceeding fifteen thousand dollars

(\$15,000.00) be raised on note or notes of the city for the purpose of constructing a deep sewer in Gonic, said note or notes to be payable out of the general appropriation as follows :—Three thousand dollars (\$3,000.00) of said appropriation to be payable two years after date, and three thousand dollars (\$3,000.00) of said appropriation to be payable each year thereafter until the full amount of note or notes has been paid.

Passed July 6, 1915.

#### TO CONNECT DEAD ENDS IN WATER SYSTEM

Resolved by the Mayor and City Council of the City of Rochester :

That the Committee on Water Works be and are hereby authorized to connect the dead ends of the water mains from Silver street to Western avenue, and at the same time include Court street; the same to be paid from the earnings of the Water department.

Passed July 6, 1915.

#### AS TO EXTENSION OF GONIC SEWERAGE

To the City Council of the City of Rochester :

Resolved, that the Committee on Water Works and Sewers be authorized to employ an engineer, Mr. L. E. Scruton being given the preference, to ascertain the feasibility and cost of extending the Gonic sewer to empty into the brook on Church street extension below the residence of Joseph Warren, the same to be paid out of the appropriation of \$15,000.

Passed July 6, 1915.

## REGARDING INSTALLATION OF POLICE ALARM SYSTEM WIRES

Resolved by the City Council of the City of Rochester :

That the Committee on Police be and the same is hereby authorized to negotiate with the New England Telephone and Telegraph Company for the installation of a police telephone system along the lines recommended by representatives of said company, and that a sum not exceeding one hundred and fifty dollars (\$150) be placed at the disposal of said Committee for said purpose, the same to be paid out of the regular appropriation for the Miscellaneous department.

Passed August 3, 1915.

## RELATING TO SALARY OF CLERK OF POLICE COURT

Be it ordained by the City Council of the City of Rochester as follows :

Section 1. The salary of the Clerk of the Municipal Court of Rochester shall be two hundred dollars (\$200.00) payable quarterly.

Section 2. All ordinances and parts of ordinances inconsistent with this ordinance are hereby repealed and this ordinance shall take effect July 1, 1915.

Passed August 3, 1915.

## AS TO HAULING HARROWS, ETC., OVER HIGHWAY

Be it ordained by the City Council of the City of Rochester as follows :

Section 1. No person shall hereafter draw or cause

to be drawn, move or cause to be moved upon any public highway or street in said Rochester, any harrow, plough, or other instrument or implement liable to cause injury to the surface of said public highway or street, unless the same is being carried or transported upon a drag, vehicle or other conveyance.

Section 2. Any person convicted of said offense shall be fined a sum not less than five dollars (\$5.00) nor more than twenty dollars (\$20.00.)

Passed August 3, 1915.

### RELATING TO GONIC SEWERAGE

Resolved by the City Council of the City of Rochester :

That the Committee on Water Works and Sewers be authorized to prepare specifications for the construction of a sewer in Gonic village, and that they advertise for bids to perform the job by contract, the contract to be awarded to the lowest responsible bidder, the Committee reserving the right to reject any or all bids.

Passed August 3, 1915.

### TO REPAIR CORNICE ON FIRE STATION

Resolved by the City Council of the City of Rochester :

That the expense of repairing the cornice of the Fire Station be paid out of the regular appropriation for Miscellaneous department.

Passed August 3, 1915.

### REGARDING PAYMENT OF TELEPHONE SERVICE

Resolved by the Council of the City of Rochester :

That the Committee on Claims and Accounts report by what authority the city paid for telephone service at the residence of Mayor Wright.

Passed August 3, 1915.

## TO PLACE WATERING TROUGH AT ADAMS CORNER

Resolved by the Mayor and Council of the City of Rochester :

That the Superintendent of Water Works and Sewers be, and is hereby instructed to connect the old watering trough, which was taken from Strafford square, with the water main at Adams Corner. The cost is to be paid from the Miscellaneous department.

Passed September 7, 1915.

## TO TRANSFER FROM ONE DEPARTMENT TO ANOTHER

Resolved by the City Council of the City of Rochester :

That the sum of sixty-seven dollars and ninety-five cents, the present balance in the Brown-tail Moth department be transferred to the department of Shade Trees, Parks and Commons and that the Committee on Finance be authorized to make such change.

Passed October 5, 1915.

## ACCEPTING TRUST DEED OF DOMINICUS HAN- SON PARK

Resolved by the Mayor and Council of the City of Rochester :

That the Trust Deed of Dominicus Hanson Park, by Charles A. C. Hanson to the City of Rochester, is hereby accepted upon the terms and conditions therein stated : and, be it further resolved, that we hereby express our satisfaction and appreciation of the public spirit, the

foresight and the liberality, which prompted the earlier wishes of Dominicus Hanson to provide such a valuable gift for the benefit of the whole public, and which, agreeably to said wishes of the father, the painstaking care and thoughtfulness of the son, in the preparation of the present physical condition of the property, and the careful and thorough manner in which the Trust Deed has been executed, has been so faithfully consummated : and be it further resolved, that the City Clerk attend forthwith to the recording of said Trust Deed in the Strafford County Registry : and be it further resolved, that this resolution be spread upon the records and a copy of the same transmitted to Charles A. C. Hanson, by the City Clerk, with the sincere thanks of this body in behalf of the City of Rochester.

Passed October 5, 1915.

### TO TRANSFER TO SCHOOL DEPARTMENT

Resolved by the City Council of the City of Rochester :

That the sum of twelve hundred dollars (\$1,200.00) be, and the same is hereby appropriated, to liquidate, in part, the deficiency in the amount of money on hand, from the appropriation for schools, and other receipts including the Literary Fund, Dog License, and Tuitions, on account of additional expenses already contracted, together with the ordinary expenses of running the schools to the end of the school year ; in order that the schools shall not be closed, and the bills necessary to be paid to December 31, 1915, taken care of ; the remainder of the deficiency going over to next year, when the appropriation of 1916 will be available, and that said sum of twelve hundred dollars be paid out of the regular appropriation for the Miscellaneous department.

Passed November 3, 1915.

TO TRANSFER FROM ONE DEPARTMENT TO  
ANOTHER

Resolved by the City Council of the City of Rochester :

That, if found necessary in closing the business of the year, to transfer from a department where there is a surplus to a department where there is a deficit, the Committee on Finance be authorized to make such transfer.

Passed December 9, 1915.

# Dominicus Hanson Park

## Know All Men By These Presents

That I, Charles A. C. Hanson of Rochester, County of Strafford and State of New Hampshire, bachelor, agreeably to the earlier wishes of my father, Dominicus Hanson, late of said Rochester, and as a memorial from him, and in consideration of the sum of One Dollar to me in hand, before the delivery hereof, well and truly paid by the City of Rochester, Trustee, in said County, the receipt whereof I do hereby acknowledge, have granted, bargained and sold, and by these presents do give, grant, bargain, sell, alien, enfeoff, convey and confirm unto the said City of Rochester, Trustee, its successors and assigns in said trust, the following described property for the purposes, and upon the conditions hereinafter specifically set forth.

The said property consists of one certain tract of land situate in said Rochester upon the northeasterly bank of the Cocheco River, and lying between said river and the location of the Boston & Maine Railroad, formerly the Dover and Winnepesaukee Railroad and known as the Hanson Pines, together with an approach fifty feet (50 ft.) in width as designated by said Charles A. C. Hanson from the Chestnut Hills Road, so called, which tract is more particularly described as follows:

Bounded northeasterly by land of the Boston & Maine Railroad, formerly known as the Dover and

Winnebepesaukee Railroad: southeasterly by land of Jedediah Morrill, commencing at the Boston & Maine Railroad and running by the face of two stone monuments set in the ground on said tract to the Cocheco River; southwesterly by said Cocheco River; northwesterly by land of Frank Smith, beginning at said River and running by the face of two stone monuments set in the ground on said tract to the land of said Railroad Company.

Which said tract has been improved by said Charles A. C. Hanson since the decease of his father, Dominicus Hanson, at an expense of over One Thousand Dollars (\$1,000) by cutting and removing over three hundred loads of bushes, trees and maples, and in constructing avenues, drives, walks and paths,—all agreeably to the earlier suggestions of said Dominicus Hanson,—the purpose being to afford to the public a park, wooded with health-giving pines, covering the ground with a carpet of pine-needles, excluding maples and other trees which yield only leaves and mold, but retaining some nut-bearing trees,—also affording to the public opportunities in connection with the park for water sports upon the beautiful Cocheco River already used for canoeing and boating, giving a beautiful sail from Duval Park and Silas Hussey Bridge by boat to the Hanson Park landing, which river may be later used for regattas.

The growth of pine should be encouraged and to that end said grantor advises that the pine-spills and pine-cones be allowed to remain upon the ground as the pine-spills are the only fertilizer that the pines have and by their removal the life of the pines would be sacrificed, while the pine-cones are largely used by the squirrels for food.

Said City of Rochester, its successors and assigns under this trust shall forever hold said property in trust for the benefit of the public as a wooded and timbered park, and a place of recreation for the people not only of Rochester and surrounding towns and cities, but of the world at large.

Said City shall have full control and management of said park and may make such rules and regulations as seems best governing the use of said park for the purposes herein specified.

This conveyance is made upon the following express conditions :

First. The said City of Rochester shall by a vote of its Mayor and Council accept this deed as trustee to serve without pay and upon the other conditions herein stated, and if necessary to the proper execution and fulfillment of said trust shall seasonably seek and obtain any legislative authority necessary to the carrying out thereof.

Second. Any trustee appointed under this deed shall accept the trust to serve without pay.

Third. That said Park shall be forever known as the Dominicus Hanson Park.

Fourth. That the evergreen and nut-bearing timber and trees standing and growing upon said premises shall be kept standing thereon and permitted to grow, except so far as a reasonable and advantageous use of said premises as a wooded park requires the construction of parkways and paths thereon, fountains, pavilions and buildings for public use, including other art embellishments as well as animal dens and enclosures, aviaries, etc., and no evergreen or nut-bearing trees shall be cut upon said premises except for said purposes until they have died and it is apparent from

their age and decay that they are no longer advantageous for the purposes of a park. It is my purpose that the question of the profit from the sale of lumber in any of the trees shall not be given any weight in the administration of this park except so far as the timber can be utilized when it has ceased to be of advantage as a covering and shade to said park, which shall be maintained by said trustee as a perpetual public park forever.

The City may make such improvements as it deems necessary to carry out the purpose and intent of this deed to make said tract a perpetual park forever.

Fifth. That no trees whatever unless dead or dangerous to the public, shall be cut upon said premises during my lifetime without my personal approval.

Sixth. There shall be no highways across the park, but there may be a park-way of the same width as a substitute for the same use.

Seventh. Whatever proceeds may come from the timber cut and removed from said premises under the conditions hereinbefore enumerated shall be kept and used as a fund for the improvement and for beautifying said park.

If for any reason there should be a failure of this trust then for the consideration of One Dollar to me in hand before the delivery hereof, well and truly paid by the Protestant Churches of the City of Nashua in said State, the receipt whereof I do hereby acknowledge, I do give, grant, bargain, sell, alien, enfeoff, convey and confirm unto the said Protestant Churches of the City of Nashua, their successors and assigns forever all of the property hereinbefore described and all property thereon and all improvements thereon that shall have been made.

I am depending upon my Catholic friends in Rochester, to see that the Protestant Churches of Nashua do not get any part of said property and upon my Catholic and Protestant friends in Rochester to see that the purpose of the trust for the benefit of the public is faithfully carried out.

If more than Five Hundred Dollars (\$500) in value of trees be cut at any time, except in case of damage by fire or hurricane, or if at any time the unexpended fund arising from the cutting of any trees or growth upon said premises (except in case of damage by fire or hurricane) exceeds the sum of Five Hundred Dollars (\$500), under the provisions of clause four, I direct that said sum be paid by my said Trustee to the said Protestant Churches of Nashua. If at any time the park is injured by fire or hurricane, however, the proceeds from the sale of trees actually blown down or killed by fire, may be held by said Trustee as a special fund, the income on which shall be used for the improvement and beautification of said park without limit to the amount thereof.

This trust shall not fail however for the want of a trustee, but the Superior Court of said County is given power to appoint a trustee in case of a vacancy in said trusteeship.

This deed shall be recorded in the Registry of Deeds for said County of Strafford.

The City of Rochester shall be exempted from giving bond for the faithful performance of said trust.

No celebration is required at the acceptance of this deed *as the donor* of this valuable gift is reposing in the cemetery where all will later rise when the Trumpet sounds, from their long sleep.

TO HAVE AND TO HOLD the said granted premises with all the privileges and appurtenances to the same belonging, to the said City of Rochester, Trustee, and its successors and assigns, to its and their only proper use and benefit during the continuance of a valid trust hereunder and forever if the conditions hereinbefore set forth are kept.

But if there be a failure or termination of said trust, then, and then only, the entire property shall pass to the said Protestant Churches of Nashua and be owned by them with all the improvements then thereon; to have and to hold the said granted premises with all the privileges and appurtenances to the same belonging to the said Protestant Churches of the City of Nashua, their successors and assigns to their only proper use and benefit forever.

And I, the said Charles A. C. Hanson, and my heirs, executors, and administrators do hereby covenant, grant, and agree, to and with the said City of Rochester, Trustee, and the said Protestant Churches of Nashua, and their several successors and assigns that until the delivery hereof I am the lawful owner of said premises, and am seized and possessed thereof in my own right in fee simple; and have full power and lawful authority to grant and convey the same in manner aforesaid; and that the premises are free and clear from all and every incumbrance whatsoever, and that my heirs, executors and administrators shall and will warrant and defend the same to the said grantees, their successors and assigns as hereinbefore set forth, against the lawful claims or demands of any person or persons whomsoever.

IN WITNESS WHEREOF, I have hereunto set my

hand and seal this fourth day of October in the year of our Lord, 1915.

CHARLES A. C. HANSON.

Signed, sealed and delivered in the presents of us :

Report of  
Superintendent of Water Dep't  
For the Year Ending December 31, 1915

---

*To the Committee on Water Works :*

GENTLEMEN :—The twenty-fourth annual report of this department is herewith submitted.

Source of supply during the year : January 1 to March 17, reservoir ; March 17 to April 2, Round pond ; April 2 to July 3, reservoir ; July 3 to November 4, Round pond ; November 4 to December 31, reservoir. During the latter part of March it became necessary to draw the reservoir down a number of feet in order to repair a submerged gate valve.

A substantial screen chamber was constructed during the latter part of the year at Round pond, which gives two independent gate houses.

A report by the State Board of Health states that our supply of water is in excellent condition and perfectly safe for drinking purposes.

It was found necessary to construct a new fence around the reservoir in the early spring as the old one was in bad condition. Bushes have been cut on the shores of Round pond, reservoir, and on the pipe line to the city.

The system is in good working condition at the present time and with the addition of the new eight-

inch line laid the past year, gives the east side of the city ample fire protection.

All hydrants are in good working order and the usual inspection is carried on during the winter months. Four new hydrants have been installed the past season, one of these is private. Locations are as follows: One Ludlow hydrant on Eastern avenue; one Corey hydrant on Orchard street extension; one Corey hydrant (private) at W. H. Champlin's lumber yard, also one Corey hydrant on Glenwood avenue, all steamer type.

Hydrants to date	187
Hydrants repaired	2

During the past year 179 meters have been installed by order of the City Council and at the request of consumers. Sixty per cent, of all services are metered. The following table gives size, make and number of meters in use in the city:

Make	5/8-in.	3/4-in.	1-in.	1 1/2-in.	2-in.	3-in.	4-in.	6-in.
Gamon	12							
Hersey	17							
Lambert	394	42	6					
New American	1		2					
National	18	75	21	3	3	2	1	2
Trident	381	4	2	3	2			
Worthington	2							
Buffalo		1						
Nash K	2	2						
	827	121	34	6	5	2	1	2
Owned by city							735	
Owned by consumers							263	
Total in use							998	

New services, pipe laid, etc., during the year :

	1-in.	1½-in.	6-in.	8-in.
Harrison Ave.				449 ft.
Leonard St.				180 ft., 11 in.
Kimball St.				281 ft., 2 in.
Autumn St.			48 ft.	36 ft.
Spruce St.		202 ft.		
Lowell St.,	379 ft., 9 in.			
Wakefield St.		126 ft., 3 in.		
<sup>Gonic</sup> Railroad Ave.	255 ft.			

On Spruce street we removed one-inch pipe, replaced by 1½-inch.

On Harrison avenue, Leonard street, and Kimball street we removed the same number of feet of six-inch pipe as was laid in eight-inch pipe ; total number of feet of eight-inch pipe from Portland street to Glenwood avenue is 3,048 feet.

Total laid to date, 32 miles, 1,571 feet.

New services	26
Services relaid	71
Services discontinued	1
*Services to date	1655
Joint leaks in main pipe	7
Leaks in service pipes	11

\*Note. We find that there are a number of services that are dead and the numbers used in computing the total number of services, consequently this gives a false report and will be rectified as we install new services.

Number of feet of service pipe laid during the year :

1½-inch	24 ft.	4 in.
¾-inch	3,906 ft.	10 in.
1- inch	566 ft.	7 in.
1½-inch	32 ft.	
2- inch	159 ft.	6 in.
Total	4,689 ft.	3 in.

Gate valves set during the year :

1¼-inch	1
6- inch	3
8- inch	7

An inventory of material and tools in this department, Jan. 1, 1916, is on file in the City Clerk's office.

To the Committee and to the Mayor and Honorable Council, I wish to extend my thanks for the assistance and support accorded me during the past year.

Respectfully submitted

J. FRANK ELLIS,

*Supt. of Water Dep't.*

Report of  
Superintendent of Sewers

For the Year Ending December 31, 1915

*To the Committee on Sewers :*

GENTLEMEN :—The annual report of the sewer department is herewith submitted :

Number of permits issued to do plumbing	66
Connections put in during the year	35
Connections to date	1,237

Number of feet of main pipe laid during the year :

Eastern avenue, 6-inch	94 ft.
Glenwood avenue, 6-inch	280 ft.

Manholes constructed	1
Manholes raised to grade	25
Sewer connections cleaned during year	33

Roots are the cause of most of the trouble and these and other ones will probably have to be uncovered and the joints re-cemented.

We have cleared main sewers of various obstruc-

tions at Leonard, Chesnut, Union and Lincoln streets, and all mains have been flushed twice this year and are in good working conditions.

An inventory of material and tools in this department Jan. 1, 1916, is on file in City Clerk's office.

Respectfully submitted

J. FRANK ELLIS,

*Supt. of Sewers.*

Report of the Committee on

## Water Works and Sewers

For the Year Ending December 31, 1915

This committee consisting of Leander P. Pickering, *Chairman*, Willard M. March, and Leopold Larose have held regular meetings on the second Tuesday of each month and as many special meetings as the business of their departments required. All meetings were held at the Superintendent's office.

During the early part of the year, the business was mostly matters which had been referred to them by the City Council. Water Works and Sewer extensions were each carefully investigated and reported with recommendations, also matters called to their attention by the Superintendent were carefully considered and advice given, attention was also given to the purchase of meters, pipe and supplies. These meetings are also open to the public for hearing complaints as to excessive water bills, etc., and action was taken as quickly as the complaint justified. All overdue bills for water service have been carefully considered at these meetings, and steps taken to collect the same.

In reply to a petition read in the Council January 5, and a resolution passed by that body June 1, this committee took the preliminary steps for the construction of a system of sewerage on the north side of the

river in Gonic village to improve the sanitary conditions there.

Plans for this work had been drawn during the previous year by L. E. Scruton, C. E., and he was engaged to draw up specifications for the same and an advertisement placed in the *Engineering Record* of New York asking for sealed proposals for the construction of said system. This advertisement brought many replies and many contractors to Rochester, and it was necessary for some member of the Committee to show them over the ground.

On the day set for the closing of the bids, August 31, sixteen contractors had sent in replies and many of these were present at the opening of the same. The following is a schedule of the proposals as received :

# LIST OF CONTRACTORS AND BIDS SUBMITTED

Names and Addresses of Bidding Contractors	15-inch 2,560 ft.		12-inch 1,780 ft.		10-inch 1,285 ft.		8-inch 650 ft.		6-inch 2,790 ft.		15-inch C. I. 24		Manholes 21 Each		Catch Basin 30 Each		Rock Ex. 230 cu. yds. Per cu. yd.		Total

M. Russo & Co., Boston, Mass.	†	‡	§		¶	70 00	44 40	40 50	4 00	14,465 75

† \$3,445.60 ‡ \$2,251.70 § \$1,731.39 || \$755.43 ¶ \$3,144.23

The contract was accordingly awarded to C. W. Foss Co., Fitchburg, Mass. Mr. Foss filed the necessary bond and commenced work, but was not able to complete by November 20 on account of lateness of season when work was commenced ; but the work is well under way and will be completed in the early spring.

Mr. Carl Springfield was employed by the Committee as engineer and inspector and with the assistance rendered by Mr. Pickering, the city is sure to receive a thorough system of sewerage.

Owing to slight changes in measurements as given by the engineer who drew the plans, it was found necessary to make some changes in the figures as furnished by the contractor, and also it was necessary to contract with him for the construction of a septic tank to take care of the sewerage beyond the top of the hill on Church street.

These changes were carefully considered by the committee and inspector, and will increase the cost by a small sum. The amount allowed by the Council for the installation of sewerage was a sum not exceeding \$15,000, and the job will be completed for less than \$12,000. All land damages, with one exception, have been adjusted.

The Committee, by vote of the Council, were also authorized to construct an eight-inch pipe line from Portland street to Champlin's mill. This has been completed by the Water Dep't and good service rendered the manufacturing and other property within the conflagration area, for an amount inside the estimate given. With two exceptions the land damages on account of this pipe line have been settled, and deeds taken.

During this year the Committee have constructed a new gate house at Round pond to replace the one which was destroyed by the ice during 1914, and have had the

same built by contract according to plans furnished by I. W. Jones, hydraulic engineer. The contract price for said gate house was \$848.50, and was awarded to W. M. Ames, of Somersworth.

In conclusion the Committee wish to thank the Council for their support and cooperation in so faithfully accomplishing the work of the year.

Respectfully submitted

F. E. HUSSEY, *Clerk.*

Report of the  
Chief Engineer of Fire Department  
For the Year Ending December 31, 1915

*To the Honorable Mayor and Members of the City Council:*

GENTLEMEN :—There have been seventeen box alarms, thirty-six still alarms (mostly chimney fires), twenty-six brush and forest fires in the city proper; four bell alarms, three chimney fires at East Rochester; two bell alarms, two still alarms, two brush fires at Gonic, making a total of ninety-two alarms for the year.

The watchman at Blue Job Lookout Station, which is maintained by the state, reported eighteen of these brush fires.

The amount of property involved is as follows :

Value of building	\$32,800 00
Insurance on same	23,050 00
Losses paid	8,268 00
Value of contents	23,425 11
Insurance on same	13,165 00
Losses paid	4,749 79

GENTLEMEN :—At the ice house fire, the Ela Hose Wagon was thirty minutes late in responding to the fire, and at the Davis bakery fire it never left the station.

This was not the fault of the men, but the lack of horsepower. This is a serious matter and I think you should take this matter in consideration.

I would recommend that the city purchase a suitable combination Motor Truck. This would also give the outside tax payers better protection and could be used in conveying the men back and forth to brush fires, which would save the city quite an expense.

I would also recommend the purchase of 1,000 feet of two and one-half inch rubber-lined double jacket hose and another horse, as one of ours is not fit for fire services.

There have been purchased for the Department during the year: One whistle blowing machine, 1,000 feet of hose, four chemicals, two play pipes, three search lights, one horse collar, one six-inch gong, one fire alarm box (No. 36), one carboy holder.

There have been thirteen fire alarm boxes repaired this year, which has been quite an expense.

There has been sold 1,950 feet of old hose, and 187 pounds of old brass.

In behalf of the Board of Engineers, I will take this opportunity to extend our sincere thanks to all the members of the Fire department for the promptness with which they have discharged their duties during the past year. We would also thank the members of the Fire Committee for what they have done for the department.

In conclusion I wish to thank the Mayor and members of the City Council for what they have done for the Fire department during the year just ended, and I

hope the year which we have just entered upon will put the Fire department in a better condition than ever before.

Respectfully submitted

JOHN F. NUTE,

*Chief Engineer Fire Dep't.*

### Financial Report

Rec'd of John Young	\$ 25 59
Horace Worcester	99 65
Lawyer Snow	1 56
Total	<hr/> \$126 80
Paid out	104 54
Balance on hand	<hr/> \$ 22 26

In conclusion I wish to thank the City Solicitor and the judge and Clerk of the Municipal Court for advice and assistance rendered in the discharge of my duties as City Marshal. Also the Assistant Marshal and Night Watch for faithful service in the discharge of duty.

Respectfully submitted

CAARLES M. COOK,

*City Marshal.*

NOTE. Police telephone boxes have been installed during the past year located at four different places as follows :

North Main street, near Rochester Grocery Co.  
Central square, near Rochester Loan & Banking Co.  
Boston & Maine station  
South Main street, near Webber's store

The City Marshal's telephone ring at the police station, 107-4, will call the Marshal to either of these boxes if he happens to be in that locality.

City Marshal's residence call, —326-3.

Report of  
Street Commissioner on Highways  
For the Year Ending 1915

*To the Committee on Roads, Bridges and Drains :*

GENTLEMEN:—I herewith submit the following report for the year ending December 31, 1915, including a summary of the work performed by the department during the year :

Breaking out sidewalks	\$225 88
Sanding sidewalks	232 92
Draining water	243 45
	<hr/>
	\$ 702 25

Carting 1,800 loads gravel to Allen school yard, Farmington, Barrington, and Ten Rod roads	\$ 811 41
Worked road machine 56 days	1,400 00
1,000 sq. yds. cement and concrete on Wakefield street	806 93
1,934 ft. 6x18 cement curb on Wakefield street	728 84
882 sq. yds. water burned macadam on Central avenue	322 24
800 sq. yds. rock fill on Reservoir road	140 55
Cement arch bridge over Isinglass river at Rochester Neck	2,203 54

CENTRAL FIRE STATION

Re-planking three bridges, 7,356 ft. 3-inch plank	\$ 343 56
Erection of distance signs at R. R. crossings	97 50
Carting rubbish clean-up week	38 11
Patching Central square	129 50
Seeding parkways, South Main street	45 00
Washouts caused by heavy rains in July	873 82
Cleaning catch basins and surface drains	169 76
Installing surface drain on Wakefield, Pleasant and Orchard, Autumn and Central avenue : 1,932 ft. 15-inch pipe, 1,300 ft. 12-inch pipe, main line connected to 49 catch basins, 11 manholes	2,908 84
1,000 sq. yds. granolithic walks	983 37
Repaired 11 stone culverts	
Relaid 3 " "	
Installed 8 wooden "	

Railings have been placed on the following dangerous embankments : Furber, Chestnut, River and Franklin streets, Salmon Falls, Pickering and Barrington Road, Gonic. Bridges and railings painted: The iron railings on stone bridge and Main street bridge at Gonic, also entire structures painted. Steel bridge over Isinglass River, Walker and one-half of bridge at East Rochester, cost—\$159.00.

Laid stone crossing on North Main street near North street.

Sections of bushes on various roads in rural districts cut: About twelve miles.

The costs of work given above are only such as we consider would be of any interest to the people at large, and not the entire expenses of the Department, as the report of expenditures are given by the City Clerk in

the reports of expenditures of the various departments.

I wish to say that road machine work in certain localities does not seem to give the most satisfactory results, before the roads are sufficiently settled they are badly rutted by the heavy automobile traffic and I am thoroughly convinced to get the results required by the people in general, these roads will have to be surfaced with material different than that which is scraped from gutters with a machine.

I am pleased to say the cost of cement work has been greatly reduced this year with the assistance of the cement mixer purchased, and I hope the committee will continue to get up-to-date equipment that we may be able to perform work at less cost, which means a great saving to the city.

In conclusion I wish to express my thanks to the Committee and Honorable Council for the support and assistance accorded me in the performance of my duties during the past year.

Respectfully submitted,

GEORGE D. DAME,

*Street Commissioner.*

The Street Commissioner's telephone, 52-3 extension, residence 139-4.

# Report of Manager of Opera House

---

*To the Committee on Public Buildings of the City Council:*

GENTLEMEN:—As manager of the City Opera House for the year 1915, I submit the following report.

During the year the Hall has been opened forty-four times. Twenty-three of the openings have been for traveling dramatic companies and orchestras and the remainder for local entertainments.

By vote of the City Council, the ante-room known as Gentlemen's Room was converted into a checking room at an expense of \$66.85 and the net earnings of this checking room to date have been \$41.87. I would suggest that the number of racks be increased as the present equipment is easily filled, and we have been obliged to take wraps and lay them at different places around the room.

I would also suggest that something be done with the seats in the Opera House as it is impossible to use them in warm weather on account of the sticky composition of the varnish. These need your most urgent attention when the house is idle long enough to permit the work to be done.

We have had an additional expense the last year on account of the Federal tax of one hundred dollars, as we have to pay according to our seating capacity regardless of the number of openings. Our running expenses have been about the same as other years with

the exception of placing the ushers on the pay roll at fifty cents each per night.

The gross receipts for the year have been \$1,187.57 and our expenditures \$902.33, making the earnings for the year \$285.24.

The year 1916 bids fair to be some improvement over the year just ended, as there seems to be a tendency for better business, consequently the traveling companies receive better patronage and more of them will come to Rochester.

In conclusion, I wish to thank the public for their generous patronage and the attaches of the house for their faithful co-operation.

Respectfully submitted,

F. E. HUSSEY,

*Manager.*

# Report of Tree Warden

*To the Honorable Mayor and City Council of the City  
of Rochester:*

GENTLEMEN:—During the past year the Brown-tail moth nests were cut on all shade trees in the city limits, and a thorough scouting made at the same time for Gypsy moth nests.

The trees were sprayed in the spring for the Elm Beetle and this did excellent work in keeping down all destructive insects.

There are a great many dead trees in the city which should be removed and young trees planted.

Mr. Hanson presented the city with two hundred cloth signs which I have placed on the trees in Hanson Park.

Respectfully submitted,

M. E. JONES,

*Tree Warden.*

# Report of City Solicitor

*To the Honorable Mayor and City Council of the City of Rochester:*

Your solicitor, as required by the City Ordinance, herewith submits the following report of all civil suits or legal proceedings in which the City of Rochester has any interest pending or determined during the year 1915.

The claim and threatened suit of David Robillard for damages by reason of personal injuries received on or about April 25, 1914, while in the employ of the Highway Department, which matter had been considered by the City Council during the year 1914, and left at that time to the committee on legal affairs and city solicitor to settle, but without success, was again brought to the attention of the present city council and the matter was left to your solicitor to ascertain what settlement could be made with Mr. Robillard. I immediately took the matter up with Messrs. Jackson & Hurlburt, Attorneys for Mr. Robillard, and finally obtained an offer from them to settle the same for the sum of \$750 which I reported back to the City Council, and it was voted to pay said sum, which amount has been accepted by Mr. Robillard and a release filed at the City Clerk's office.

A petition for injunction brought by the City of Rochester upon the advice of the Mayor and with the consent of the City Council against the Boston & Maine Railroad, arising from the construction of a railroad

bridge over the highway on the Dover Road, was entered at the September Term and continued by consent of all parties until the February Term in order to give the railroad an opportunity to make certain promised improvements requested by the Mayor.

There are no other claims to my knowledge now pending against the City of Rochester which cannot be easily adjusted at the proper time and without legal complications.

The Superior Court Docket is absolutely clear of all actions pending against the City of Rochester of every description, which I am sure is a matter of personal pride to every citizen interested in the welfare and prosperity of our city.

Respectfully submitted,

JUSTIN A. EMERY,

*City Solicitor.*

## Report of Committee on Street Lights

*To the Mayor and Council of the City of Rochester:*

GENTLEMEN:—We herewith submit the following report: This Committee during the past year completed many changes in pole locations, to bring about results necessary for the making our pole system a tri-party affair. The last of the poles to be so relocated being on Summer and Kimball streets and Eastern avenue. In carrying out this work, it was necessary to have old poles removed and new ones set and to make many changes in overhead construction.

We have also had poles removed on Congress street and relocations granted between the New England Tel. & Tel. Co. and the Twin State Gas & Electric Co., to better conditions at this point. It was also necessary to grant joint locations on Central avenue and on Portland streets between Central avenue and the railroad crossing. Many poles have been relocated to do away with troubles caused by trees. We have had surplus poles on North and South Main and Wakefield streets removed to better conditions on those streets and have granted new locations on the Strafford Road, at what is known as Cherry Tree Hill to remove said poles from the traveled highway.

As regards our lighting system, we have made arrangements with the Twin State Gas and Electric

Co. whereby the high tension wires, carrying 10,000 volts through Charles and Congress streets will be removed from the compact part of the city, and three new transformers will be installed near the Rochester Car Barn. All work contemplated will be completed during March, 1916. All these changes will work for the benefit of the department.

Many petitions for new street lights have been received during the year. These have had our most careful consideration and lights have been installed or relocated as the requirements of the different localities demanded. The following is a list of the street lights in use in the City of Rochester, Dec. 31, 1915, for which we are paying as per contract with the Twin State Gas & Electric Co. dated January 1, 1914, and written for five years. This expenditure amounting to about \$590.00 per month, requires our closest scrutiny to make allowance for changes in bills caused by the installation of new lights.

In conclusion, we wish to thank the officials of the Dover, Somersworth and Rochester Street Railway, The Twin State Gas & Electric Co., The New England Tel. and Tel. Co., for their efforts to improve their systems for the benefit of the public.

Respectfully submitted,

SAMUEL E. SHAPLEIGH,  
GEORGE E. HORNE,  
LEOPOLD LAROSE,

*Committee on Street Lights.*

Rochester, N. H., March 31, 1915.

# Report of Library Trustees

*To the Honorable Council of the City of Rochester:*

GENTLEMEN:—The Board of Trustees of the Rochester Public Library submit herewith the twenty-second annual report, also the librarian's and treasurer's report for the year 1915.

The board has held regular monthly meetings and the management of the library has been along the same lines as heretofore. With a circulation of 68,761 during the year, 11,132 more than last year and 19,049 readers, 4,979 more than last year, it must be evident that the public appreciate the library. The reading room has been open twenty-one Sundays, with an attendance of 651. The steady increase in circulation and in the reading room is gratifying to the trustees.

The reference books are used to a large extent by the public schools to assist them in their studies. The trustees appreciate the gift of \$11.45 from the High School for the purchase of reference books, and we trust that the aid rendered them from the use of these books and the many questions answered by the librarian will induce them to contribute each year for the purchase of reference books.

During the year the attention of the Council has been called to the necessity of shutters being placed on the windows of the library building as a protection against fire. We would renew this request.

Repairs have been made on the building during the year. Slates on the roof were replaced at a cost of \$40.00, and other minor repairs to the amount of \$18.30. All money used for this purpose means less books for the public.

During the coming year new shelves will have to be placed in the reading room and the floors redressed, and in order to maintain the library in its steady growth and satisfy the demand of the public for good literature and also make the library an able adjunct to our public schools by purchasing the latest reference books, we trust the Honorable Council will make the appropriation for 1916, \$4,000.00.

The trustees are gratified at the increase in circulation and attendance and wish to express their appreciation of the attention shown the patrons of the library by the librarian and assistants during the year.

For the Trustees,

JOHN YOUNG,

*Secretary.*

Rochester, N. H., December 30, 1915.

# Report of Librarian

---

*To the Board of Trustees of the Rochester Public Library:*

GENTLEMEN:—I herewith present the report of the Rochester Public Library for the year ending December 31, 1915.

Looking over records and statistics preparatory to making a report, such a decided increase was apparent along the various lines of library activity, that, it seemed wise to present the figures for your consideration, as the best and quickest method of showing the work of the year, the growth and usefulness of the library, and the way in which it has satisfied public demand. I therefore call your attention to the summary which follows as an accurate report.

To one versed in economics it is a recognized fact, that greater wisdom is required to spend a small income wisely, than to do the big things of life with a large income. This is as true of library economy as of personal or business affairs. Therefore, to obtain any noticeable results with the book allowance of 1915, the process of elimination has been practiced most thoroughly and a careful study made of existing circumstances and requirements, resulting, in the purchase of 228 volumes of fiction, some old and some new, for \$200.22; 66 volumes, the best to be found for young readers, at a cost of \$49.93; and 182 volumes of non-fiction, including a few reference books, for \$299.34.

Thus you will see that, if measured by books purchased the year's growth would have been small but in addition 297 bound magazines, pamphlets, state and city documents and gifts have been accessioned making a net gain for the year after all losses have been deducted of 759, and the total number of volumes 17,809.

The library was not created for the few, but for the many, therefore to give a card to a new patron is a pleasure, extending as it does library privileges in another direction. During the year cards were issued to 428 people, thus opening many channels for amusement or instruction; 73 of the number registered at East Rochester; 39 at Gonic and 316 at the library.

The demand for books not only shows the trend of modern thought but to a great extent follows the newest and most interesting publications. The great demand, in non-fiction, has been during the year for books concerning the European situation, but in spite of this great crisis in the world's affairs and in spite of the flood of interesting literature and the current news which must be read, the great hue and cry still goes forth for fiction. The number of books given out was 68,761, an increase of 11,263 over last year. The children's room shows a circulation of 18,263, an increase of 5,504. The agency reports give a circulation of 33 more at East Rochester, a total of 2,651; an increase of 606 at Gonic and a total of 3,739.

The privilege of using the library for fortnightly meetings has been granted two of the local clubs, one the Nature Study Club, the other, the Half Hour Reading Circle. This not only broadens its usefulness but helps to make of the library a center from which may radiate much of good to the community.

The reading and reference room records show a

decided increase in readers and students, the total number 19,049 is 4,979 more than last year. The readers in the children's room numbered 9,542. This room as well as the reference room is often crowded to its utmost capacity. Several times during the year it has been necessary to send groups of High School students to one of the rooms upstairs on account of the crowded condition of the reference room. The Sunday readers numbered 651, for the most part men or boys. The largest number any one Sunday, 62.

As heretofore, a very large proportion of the reference work has been done with the pupils of our schools. So large a part of each school day is devoted to their varied needs, that, in spite of the advice of Mr. Ward the library has been in great danger of becoming a school or being swallowed entirely by the schools. You will get some idea of this part of the work, if you notice in the statistics, that 86 library books were in different school rooms at one time and that, in all 401 have been given out to teachers for use in the school rooms; that, 1,090 books have been held in reserve at the library for pupils and teachers and that, there have been as many as 75 pupils in a single day, looking up subjects assigned. While this proves that the library willingly does what it can to assist in the educational system of Rochester, it likewise proves that it must hold an important place in that system, that while saving many dollars of the school appropriation it cripples its own finances to some extent as, in order to provide the assistance required, time and money has to be diverted from some other legitimate branch of the work.

During the ten years which the library has occupied its present building, it has grown from 10,004 volumes to a library, with all lost and worn out books

discounted, of 17,741 volumes. From an annual circulation of 30,571 to one of 68,761. From the 4,715 readers of 1906 to 19,049 during 1915. During the present year it has attained a phenomenal growth in out-put and in use. It almost seems as if the highest possible point had been reached unless the people can do more for it. It has been said that "no institution touches the lives of so many of its people," that, "it deals not merely with students preparing for life but with men and women leading lives." It would therefore seem to be not only a duty but a privilege for the citizens to do what they can for the library.

The year as far as the inside working is concerned, has been one of rush, of wear and tear, of care and worry, in order that the material on hand might satisfy the insistent demands. The book appropriation has been by far inadequate, supplementing as the library must, every grade in our schools from the first to the senior class in High School; providing for more advanced students as well as the general reader; supplying the demand whether it be for history or philosophy, fiction or the material for the workers in every art, trade, profession or walk in life. Reference and reading rooms on the first floor are oftentimes inadequate to accommodate those who come for a legitimate use of the library. Salaries are inadequate. As the staff has to supplement the work of the schools as well as to competently meet the various needs of the library patronage, salaries should be placed on a par with the teachers, with a suitable ratio of increase according to the years of service, in order that a library employee, when well used to and reasonably proficient in her line of work shall not find it necessary to take up more lucrative employment in order to gain a living. The

work of a library, from its highest position to its lowest is not play work, but earnest, painstaking, thoughtful, hard work, by no means limited to the time which the doors are open to the public. Work to which only the willing, the patient, and the studious are eligible.

I wish at this time to thank the trustees for their kindness and encouragement and to express my gratitude to the assistants for their faithful service and willing co-operation in the work of the year. I would also express thanks to any and all who have in any way, by word, by deed, or by gift shown their appreciation of the library.

Respectfully submitted,

LILLIAN E. PARSHLEY,

*Librarian.*

Rochester, N. H., December 30, 1915.

## Report of the Superintendent of Schools

*To the School Board of Rochester:*

I submit herein my first annual report as superintendent of schools, it being the twenty-fourth in the series of such reports. I shall attempt only a brief statement, based upon the experience of the past half-year. The report is brought down to March first of the present year.

I was elected superintendent June 18, for the year beginning August 1. Between these dates I was able to command from one to three days a week, which I spent in Rochester, acquainting myself with the needs of the school system.

I should like here to acknowledge the very great kindness and courtesy of my predecessor in office, Mr. Everett A. Pugsley, who during this time, spared no pains to assist me in becoming familiar with the details of the administration of Rochester schools, and who, even after the expiration of his term of office, gave much time to the work of completing and arranging a system of records recently installed.

The duties of superintendent of schools are two-fold, administrative and educational. During the six months covered by this report I have found so many matters claiming my attention as the executive officer of the board that I have made only a beginning of the

work of inspecting and assisting to make more efficient the work of the teachers in the classroom.

My first task was the search for new teachers, to fill vacancies already existing, and those which repeatedly occurred during the summer. The following list shows the changes which have occurred since the last report.

RESIGNED	SCHOOL	ELECTED
Ralph Whipple	High School, Science	Fred S. Brock
John R. King	Commercial	Charles Hainfeld
Ina F. Babbitt	English	Minna G. Boomer
Helen C. Stetson	Math.	Helen W. Plumer
Minna G. Boomer	Eng. & Hist	Ethel C. Magoon
Charles Hainfeld	Commercial	Walter L. Harrington
Ina B. Libby	Allen, I	Bernice E. Frye
Lyda M. Lattie	V-VI	Nellie W. Dickey
Hazel M. Neal	School Street, II	Agnes M. McCarthy
Maude M. Wilmot	Gonic, III	Annie L. Thompson
Etta E. Burbank	East Rochester, II	Pauline Sweet (Sub.)
Lyda M. Lattie	VII-VIII	Sara J. Holland

During the summer supplies were purchased for the fall term, competitive bids being first called for from several of the supply houses, and the supplies were delivered directly to the various schoolhouses. By the same methods supplies for the calendar year have been purchased during the month of January, out of the appropriation for this year.

During the summer vacation cement walks were laid at the School street and Maple street schools, greatly improving the buildings and grounds, and preventing the washing of the soil by rain from the roofs. New floors were laid at East Rochester, grade I, and at

Meadorboro. The boilers at the Gonic, Allen, and High school, were re-lined with fire-brick. At Gonic the return pipes and flues to the chimney were changed, increasing the efficiency of the heating plant. At School street four sections were replaced in the large boiler, and one in the small boiler. At both the Gonic and High schools new grates were installed. In several rooms seats were changed so that pupils would not have light coming over the right shoulder. One new room in the Allen building was fitted up for the occupancy of the overflow of the fifth and sixth grades, partly by the purchase of new seats and desks, and partly by transfers of furniture from other rooms. During the Christmas holidays new desks and seats were placed in the High school room formerly occupied by the seventh grade, and the furniture removed was used to furnish the small room in the School street school now occupied by the eighth grade.

Some progress has been made in the adequate equipment of the schools with reference and text books. Classes are now furnished with music books and penmanship manuals, and fairly well equipped with reading material. Arithmetics, geographies, histories and grammars are in very poor condition and inadequate in quantity. We shall be able, with the recent appropriations, to make progress in supplying the deficiencies here in the near future. Two new typewriters were purchased for the commercial department during the summer in exchange for out-of-date machines.

I have spent much time, acting as secretary of the committee on new rules and regulations, in collecting and arranging material, and putting it in such shape that it could be discussed by the committee. This work is nearly completed, and the rules and regulations ready for submission to the board.

Following the demand of the state board of health upon the local board for the strict enforcement of the law relating to vaccination, the requirement has been made that every pupil be either vaccinated or present a certificate from a physician saying that he is an unfit subject for vaccination. By direction of the board of health, the few pupils who failed to comply with these requirements were excluded from school. I am able to report at the present time, that compliance with the law has been practicably complete.

We have made provision for the health and comfort of pupils who remain at the school buildings during the noon hour by furnishing in some of the buildings a warm dish to accompany their lunch. Through the generosity of friends of the schools, the Allen, and School street schools have been furnished with simple outfits consisting of oil stove and dish washing and cooking utensils, and a similar outfit has been promised for the East Rochester school. The children co-operate by bringing the dishes needed for their own use and in contributing their share of the food. Such dishes as hot cocoa, soups, and potatoes and eggs cooked in various ways, are prepared to accompany the cold lunch brought by the children. The plan offers an opportunity for instruction in good housekeeping, cooking, care of food and utensils, table manners, and the habit of co-operation.

We are making an effort to bring to school all children of school age, and to cut down to as small proportions as possible the absences without cause. The truant officers are working to this end with much zeal and discretion. The statements on the census cards have been examined, and all cases of children returned as not in school have been investigated.

An event of very great importance to the school

department is the organization of the Parent-Teacher association. It is already a strong and vigorous organization, actively interested in helping the schools. I think we may anticipate very great results from its activities.

On the educational side, my work has consisted largely in visits to the classrooms, involving criticism and suggestions made in conference with the teachers, and in teachers' meetings held for various purposes. We have had one general meeting, two meetings of the principals of the schools, four grade meetings in which the work of grades one to four has been discussed in detail, one meeting for teachers of music, and weekly meetings for teachers of handwriting. Especial emphasis has been placed during the half year upon the latter subject. Many of the teachers are taking correspondence lessons, and fitting themselves to become both expert penmen and teachers of handwriting. I hope to continue the grade meetings for the upper grades at an early date.

A teachers' library has been started by collecting the books in the office and in the schools suitable for such a purpose, and a few volumes have been purchased. Many similar books are available in the public library. The assistance of the library in the work of both teachers and pupils, is of the greatest importance, and the more than cordial co-operation of the librarian is thoroughly appreciated.

Looking now towards the future, I may say that it seems to me that we are equipped for work of a high order. The pupils are splendidly concentrated, with no schools of the small, isolated, forlorn type so common in many districts. We have, in the main, excellent school buildings, and very unusual playgrounds, so far

as the amount of land is concerned. It is a pleasure to speak in the highest terms of the teaching force. Almost without exception, teachers are earnest, industrious, enthusiastic, and progressive.

The things we are to strive for in the immediate future are those toward which every good school system is working. School people everywhere are trying to make education less bookish and more real, less abstract and remote, and more useful and practical. We are trying to deal less with children in the mass, and more with individual children. We are endeavoring to avoid the lock step in the school. We are trying to cultivate initiative, independence, and sound judgment in pupils, in place of the extreme docility and dependence upon the teacher, which characterizes some of the so-called best schools. Perhaps the most important of all, we are trying to socialize education and train the child to group work or team work, and above all to think of his life as a part of the common life of the community and the world.

In carrying out these ideals, the first matter which presents itself is the organization of the program, in the effort to cast out all useless topics and subjects, to reduce the subjects taken to their minimum essentials, and thus find time for those matters which are of supreme importance. If anything is plain, it is that education does not consist in imbibing knowledge from books, which may be useful in later life, but does consist in training for efficiency in action. If this is true, it follows that we must have, in school work, much more doing than at present. Rochester schools are very much behind in this particular. We have only a single vocational course in the High school, where other schools of the state have two and three such courses. We have no drawing, sewing, cooking or manual train-

ing in the lower schools, nor do we have systematic training out of doors upon the playgrounds. Our endeavors, I believe, should be along these lines, and as rapidly as possible we should provide work which involves action, initiative, and enthusiasm on the part of the pupils, and which will train them to think and to do, rather than simply to remember.

I cannot close without commenting, in the highest terms, upon the services of the janitors of the various schools. The city is fortunate in having in its employ a body of men who are industrious, devoted, and discreet to a high degree. I am impressed more and more, as time goes on, with the importance of this office in the school system. The work involved is vastly more than the mechanical details of the care of buildings and heating plants. The men who are employed by the school department are giving service out of all proportion to the compensation which they receive, which is, in fact, less than that paid the day laborers employed by the city.

In conclusion, I wish to acknowledge the courtesy and consideration shown me by your board, and the cordial co-operation of both citizens and officials in working together for the good of the schools.

Respectfully submitted,

CHARLES A. BRECK,

*Superintendent.*

# Report of the Principal of the High School

*Mr. Charles A. Breck, Superintendent of Schools :*

SIR:—I herewith submit the annual report of the High school.

In the class of 1915, the following students were given diplomas :

Name	Present Occupation
Jeanette Annis	Mrs. Euclide Vachon
Stella Bickford	At Home
Ruth Brock	Mrs. Guy Huckins
Ida Clarke	Housework
Mildred Cook	Plymouth Normal School
Blanche Critchett	Teaching, Barrington, N. H.
Louise Dennett	F. H. Woolworth's
Ethel Fairbanks	At Home
Lillian Fernald	New Eng. Tel. & Tel. Co.
Irene Hall	N. H. State College
Susie Harmon	Office, Linscott-Tyler-Wilson Co.
Ellen Hart	Plymouth Normal School
Arline Hayes	Post Graduate, R. H. S.
Mary Hodgdon	Bates College
Marion Holmes	Simmons College
Gertrude Horne	Jonas Spaulding & Sons Co.
Faustina Jordan	Teaching, Piermont, N. H.

Name	Present Occupation
Annabelle Lowe	At Home
Mildred March	Plymouth Normal School
Grace McCallister	Office, Leslie W. Snow
Jennie McDonald	Office, E. G. & E. Wallace
Ellen Nangle	Office, N. B. Thayer
Maude Reid	Office, Linscott-Tyler-Wilson Co.
Marion Roberts	Gray's Business College, Portland, Me.
Doris Shapleigh	Bates College
Hazel Shedd	N. H. State College
Grace Springfield	Gray's Business College, Portland, Me.
Florence Shorey	Office, N. B. Thayer & Co.
Julia Teague	Office, Salinger Bros.
Louise Tripp	At Home
Spencer Baril	Cushing Academy
Earle Brock	With A. L. Brock Rubber Co., Saugus, Mass.
Kenneth Brock	Cushing Academy
Ralph Canney	At Home
Perley Cater	With Gonic Mfg. Co.
Murray Collins	With E. G. & E. Wallace
Roland Foss	Dartmouth College
Leo Halpin	With E. G. & E. Wallace
John Hickey	N. H. State College
Kenneth Magoon	Tilton Seminary
Arthur McGinn	In Employ of City Hotel
John McGinn	B. & M. Freight Office
Arthur Meader	At Home
Carleton Meader	With Gonic Mfg. Co.
Raymond Meader	N. H. State College
Samuel Stokes	Tufts Dental College
Robert Sweet	Exeter Academy

Name	Present Occupation
Burton Sylvester	Post Graduate, New Bedford High School
Thornton Tripp	At Home
Eben Wallace	Exeter Academy
Jasper Ward	Bryant & Stratton Business College
Wallace Wright	Dartmouth College

To summarize this class of 52 by present occupations; the record shows:

In college	10
In normal school	3
In various preparatory or business schools	10
In office positions	7
Teaching	2
Married	2
At work in various occupations	11
At home	7
	<hr/> 52

Two of the boys listed as "at home" are endeavoring to earn money to enable them to enter college next fall, and two girls are at work with the intention of later entering normal school or college.

In addition to this list, two of our previous graduates entered Boston University this fall; four, New Hampshire State college; one, the University of Vermont; one, Wellesley college; and one, Bates college.

The total enrollment for the year is 302, divided as follows: one post-graduate; 47 seniors; 56 juniors; 84 sophomores; and 114 freshmen. Of this number, 40 have left school, leaving the present membership

262 as compared with the total enrollment of 296, and a present membership of 288 December 1, 1914.

The teaching force, for the second successive year, lost nearly half its membership as the result of resignations presented last June. Mr. Whipple assumed the principalship of the Kennebunk, Me. High school; Mr. King took charge of the commercial department at Brewster Academy; while Miss Stetson and Miss Babbitt accepted positions in Manchester, Mass., and in Concord, Mass., respectively. In every case, these changes were promotions of efficient teachers to positions of higher salaries and added responsibilities, the increase in salaries alone ranging from \$100 to \$300 in each case; but it is evident that this constant change in the teaching force presents one of the most serious problems this school has to meet. There are at present but two assistant teachers in the school who were here in the fall of 1913; and since that date, the important position, head of the commercial department, has had four different occupants. Even if we lay aside all question of comparative merit, it is evident that every such change means a loss of time, and a waste of energy in adapting new personalities to local needs and conditions. It is to be hoped that some means of holding instructors of recognized ability may be devised, as one of the most effective means of increasing the efficiency of the school.

In the places made vacant by these resignations, the Board elected Mr. Brock, Mr. Hainfeld, Miss Plumer, and Miss Boomer. The candidates selected have begun their work with energy and enthusiasm; and the faculty as a whole is capable, harmonious, and efficient.

We are fortunate in that the Board has been able to retain the services of Mr. Dame as janitor. Aside

from his thorough care of the bulding and premises, his attitude of ready willingness to co-operate with the teachers or pupils in any plan for bettering school conditions, and his ability to meet the demands on his time and energy, can hardly be too highly commended.

During the year the school has received several gifts from its alumni and from other friends. The class of 1908 gave a fine copy of Bastien Lepage's *Joan of Arc*; 1914 installed a sanitary drinking fountain; and 1915 a shower bath for the use of the athletic teams. The business men of the city contributed a large framed picture of the 1915 champion base ball team, Dr. Robert V. Sweet and Mr. Lynn Storer made gifts to this team, and last, but by no means least, Mr. Fred Allen Walker recognized the scholastic side of the school activities by offering a splendid silver "Dartmouth" medal to be awarded for the best scholastic record made during the present year. The Mary Emily Springfield scholarship continues to provide a generous aid for the college expenses of a Rochester graduate. For the present year, this scholarship has been awarded to Miss Ruth McCallister of the class of 1914.

Debating has been attempted for the first time, with excellent results. The "Forum," a voluntary organization of about twenty boys, held some half dozen debates within the school and furnished the material for two teams, which successfully represented the school in interscholastic debates with Nute high, and with Sanborn Seminary. The interest was good and the benefit derived undoubted. One of the boys from this organization has already been chosen a member of the freshman debating team at Dartmouth. It is hoped to continue the "Forum" in much the same form this winter.

The High school entertainment course is now producing a yearly profit of at least eighty dollars. The indications are that the present course will probably show a greater profit financially than any yet undertaken. A new Neostyle has been purchased, certain reference books have been bought, in conjunction with the public library, which, by its co-operation with the school, has rendered it unnecessary to maintain a distinctly school reference library. It is intended to use the remaining sum as a reserve fund to be drawn upon from time to time as special needs develop.

Athletics have flourished both as regards finances and as regards a healthy activity in this branch of our school life. In football, Mr. Hainfeld has willingly given a large part of his time, outside of school, to developing and coaching the team, with the result of the best athletic showing the school has made in recent years. Volley ball has been introduced, for the girls, with most gratifying results. Over fifty made use of the court, and it is expected that this number can be greatly increased when a second court is installed next spring. A judicious amount of healthful out-of-door exercise for the largest possible number is the aim in view, with enough outside games to maintain the competitive spirit necessary to hold the maximum interest. The school paper has cut down its number of issues from five to three in order to avoid the necessity of conducting a social or sale to pay its bills. This makes the "Red and White" a straightforward business proposition able to stand on its own feet and to pay its own way, while it has been able at the same time to maintain or even improve its literary standard. The usual number of school or class social evenings have been arranged.

In the matter of equipment, some progress has been made. The small desks and seats in Room 2, which were never designed or intended for high school classes, are to be replaced by furniture better adapted to the age of the pupil. A new arrangement of seats and the installation of a demonstration desk in the laboratory have greatly added to the efficiency of the department. The question as to fire escapes has already been presented to the board. Under normal conditions, it has invariably been possible to completely clear the building in one minute or less; but if actual danger were at hand and the corridors were filled with smoke, particularly if any great number of the pupils were in the assembly hall on the third floor of the building, the situation might readily present very dangerous possibilities. Pending the construction of fire escapes, the fire drill has been modified to provide for possible emergencies; and at each drill, certain pupils have been detailed to make sure that every one has actually left the building.

Textbooks, while on the whole in improved condition, still present a serious problem. This year four classes have bought and paid for necessary textbooks, which the board was not able to procure at the time with the funds available. Two divisions in Ancient History are now using texts bought in September, 1911, which are not at all suited to their needs, and the copies of which are practically worn out. Many of the supplementary texts in English are in very poor condition and must be replaced. In French, one division provided with a modern textbook has shown a marked advance beyond the other division of the same class, which is more poorly equipped. Such conditions materially impair the efficiency of the school and are being cor-

rected as fast as funds are made available. Meanwhile, one chapel period a week has been given over to inspection and repair of books still usable, and an accurate system of charging and tracing books has been maintained.

In the classroom most of the attention has been devoted to liberalizing the subjects taught and to bringing the subject in closer relationship to the actual life of the pupil. Our Commercial department has extended its office practice begun last year, until now each member of the senior commercial classes has three or more weeks of real office work, sometime during the year, either in the principal's office or in that of the superintendent of schools. The department has also undertaken a great deal of copying and duplicating exercises, problems, or forms for other departments of the school, besides accepting some work of the same nature from outside sources, as a business enterprise. It is hoped that a similar plan may be devised for our bookkeeping classes. The present method involves the purchase each year of considerable expensive material part of which, at least, is of very doubtful value. It would seem that the school and city accounts might readily be made to serve as a basis for much of what we now require our textbooks to provide, and investigations are being made as to how far we can safely go in this direction. This same tendency has been very marked throughout practically every department of the school and will probably be carried considerably further during the next year. Three of the faculty attended summer school during the last vacation, and others plan to do so next year, while every teacher is making a strenuous effort to render the instruction applicable to the real life of the pupil.

As the situation appears at present, the school is justifying its existence in two definite phases of activity. First, as a college preparatory school, during the last year, it has been reapproved for the certificate privilege by the New England Board of College Entrance Certification, by Dartmouth College, and by Worcester Polytechnic Institute, in each case for the maximum period for which such approval is granted by the institution named. Further, nearly twenty per cent. of our graduating class have entered college directly from the school and are doing creditable work. We hope to equal the record of last year, when not a Rochester graduate failed in a single subject covered by the entrance certificate. The record also shows that apparently we are successful in stimulating in our pupils a desire to continue their education beyond the high school. Twenty-three pupils who are engaged in such work, out of a class of fifty-two, is rather an exceptional record, and must be considered as due, in large part, to a combination of circumstances rather than altogether to the policy of the school.

Second, our commercial department is each year receiving a greater call for competent graduates to take good positions in our own community. Seven such graduates were placed this year, and it is believed that, in the future, we can offer the community even better service of this nature. We hope to be able to open greater opportunities for the boys, as well as for the girls, and to give them really a more definite value for the time spent in the school.

It does not appear, however, that the school should limit its field to the two classes of pupils outlined above. A great many never can go to college or normal school, and many more do not intend to undertake office work.

Even from this exceptional graduating class, in which over sixty per cent. have followed one of these two well defined paths, there are far too many who have not received from the school all that the ideal school should give them. Even then, the real seriousness of the problem is not apparent from the study of the statistics of a graduating class. The boys and girls who have not graduated, but who have gone to work have been too often allowed to leave, because the school has had too little to offer them. We have, for instance, pupils with marked talent in drawing, who are not particularly successful in academic branches. We have boys, who would make excellent machinists, or girls, who would do splendid work in some of the practical art courses, but who may very likely drop out of school through lack of interest in what the school can at present offer. New Hampshire State college, by its two-year courses, will very probably attract many of this type; but it is to be sincerely hoped that as soon as possible we may be enabled to go further in our own development of such work.

Permit me to express my sincere appreciation of your friendly and efficient co-operation in the solution of our school problems, and to thank the parents, citizens, and members of the board who have given liberally of their time and energy for the good of the school system.

Respectfully submitted,

GILMAN H. CAMPBELL

*Principal.*

# Report of Supervisor of Music

*To the Superintendent:*

SIR:—I respectfully submit my report of the music in the schools of Rochester.

The work is progressing, and has never been at a higher standard than at present. The reason for this is the earnest and hearty co-operation between the teachers and myself, and the spontaneous response from the children, who show a marked appreciation of the opportunity given them to study music,—the greatest of the arts. The music, as we find it in our schools today, is something everyone in Rochester should be proud of. Our children read music at sight from the first grade through the high school, and also are being taught to write music, so it becomes something real to them. Some of the original melodies handed to me would do credit to much older people, and to people having a much broader musical education.

One High school chorus is doing splendid work, and I can safely say there is no study to which they give more earnest attention, or from which they derive more real pleasure, than the short period given to music.

The extra day given to me this year has helped wonderfully, and we can do better work and more of it. We are also having special meetings for the teachers, for the discussion of the best ways to present

and teach music, and we all find these meetings very helpful. The sight singing in the grades is greatly improved, and both written and oral dictation have progressed. We find a much sweeter and purer tone quality in all the rooms, and the sense of rhythm is noticeably better.

Our graduation music last June, taken from the regular work in school, is worthy of mention, and both teachers and myself felt proud of our boys and girls; we also speak with pleasure of the Mandolin club, from the High school. They did very good work with one rehearsal a week all last winter, and on several occasions played to everyone's satisfaction. We also had a very fine boys' quartette.

In closing, I wish to thank the teachers who have worked with me this past year, and assure them of my heartiest appreciation, for only their willingness to co-operate with me, has brought the year's work through successfully and has made the work a very great pleasure to me.

Respectfully yours,

MOLLIE C. DONOHUE,

*Supervisor of Music.*

## Class Ode

*Words by Robert V. Sweet, Jr.*

To-night we meet together, the last time as a class ;  
The moments that are brightest are the swiftest ones to  
pass.

The years of work and study, we never shall forget ;  
We have gained a little knowledge, culture, sense ;  
and yet

*Chorus*

It's a long way to perfect manhood,  
It's a long way to go ;  
It's a long way to self-reliance,  
And the progress seems so slow.  
Good-bye care-free boyhood ;  
Farewell, girlhood, fair ;  
It's a great, great deal the world asks of us ;  
But we'll do our share.

Europe battles, but our country stands for peace and  
right ;

We are ready if she ever calls on us to fight.  
Never will she use her power, wealth, and lands for gain ;  
But if enemies attack, she will resist with might and  
main.

*Chorus*

So it's a great deal we have to vanquish  
If she calls us to go ;  
Self-control our greatest lesson,  
E'er we're fit to meet a foe.  
Good-bye self-indulgence ;  
Ever be we square :  
We must conquer life's temptations  
If we would fight fair.

We are ready for life's battle, eager for the start ;  
Our hearts are filled with sadness, for the time has come  
to part.

But no matter where we wander, whatever be the scene,  
We'll always be united Class of Nineteen Fifteen.

*Chorus*

As we journey we shall be thankful  
For the lessons we have known ;  
We shall be grateful to our teachers  
For the patience they have shown.  
Good-bye old associations ;  
Farewell schoolmates dear ;  
We will long, long cherish these glad school days,  
And our hearts be here.

---

**Class Officers**

President . . . . .	Eben Wallace
Vice-President . . . . .	Kenneth Heath Brock
Secretary and Treasurer . . . . .	Mildred Edessa March

---

**Class Honors**

Valedictory . . . . .	Grace McCallister
Solutatory . . . . .	Marion Frances Holmes

## Graduates

## CLASSICAL COURSE

Ida Amelia Clarke	Louise Frances Dennett
Lillian Eleanor Fernald	Irene Marguerite Hall
Mary Hobbs Hodgdon	Marion Frances Holmes
Faustina Millicent Jordan	Mildred Edessa March
Jennie Margaret McDonald	Doris Millicent Shapleigh
Grace Marion Springfield	Louise Evelyn Tripp
Spencer Frye Baril	Roland Chester Foss
Robert Vaughan Sweet, Jr.	Wallace Wright

## ENGLISH COURSE

Jeanette Emily Annis	Ruth Alice Brock
Mildred Mabelle Cook	Blanche C. Critchett
Anna Belle Lowe	Florence Abbie Shorey
Earl Meader Brock	Kenneth Heath Brock
Ralph Wilson Canney	Thomas Murray Collins
John Thomas McGinn	Carlton Eugene Meader
Raymond Brackett Meader	Samuel Hartley Stokes
Burton Chadwick Sylvester	John Thornton Tripp
Eben Wallace	

## COMMERCIAL COURSE

Stella Phoebe Bickford	Ethel May Fairbanks
Susie May Harmon	Ellen Louise Hart
Arline Electa Hayes	Gertrude Lillian Horne
Grace McCallister	Ellen Louise Nangle
Maude Lena Reid	Marion Esther Roberts
Hazelle Maude Shedd	Julia Lucille Teague

Perley Lovell Cater	Leo Eugene Halpin
John Rodden Hickey	Kenneth Faunce Magoon
Arthur Paul McGinn	Arthur Drew Meader
Jasper Greenfield Ward	

## GRAMMAR SCHOOL GRADUATES, 1915

## WAKEFIELD STREET, EIGHTH GRADE

Carlyle B. Baker	Virginia M. Bliss
Walter T. Cate	Elsie A. Camm
Roydon F. Cleeves	Christine F. Chamberlain
George A. Crateau	Margaret E. Collins
Raymond Crateau	Louise Grant
R. Kirk Dearborn	Grace U. Horne
Lawrence W. Goodwin	Gladys L. Hislop
Walter A. Gilbert	Annie M. Jackson
Charles D. Hussey	Avilda E. Jordan
Horace S. Jordan	Helen L. McCauley
Wilfred Lessard	Maude C. McDuffee
J. Irving McCallister	Vanette N. Otis
Clement McCallister	Mildred P. Rand
Ellsworth W. Perkins	Helen B. Reid
Irving J. Piercy	Rose L. Rokey
Guy B. Richards	Marion A. Shaw
H. Eugene Seavey	Estella H. Spinney
Oliver Turmelle	Marion J. Stevens
Richmond Ward	Harriet M. Trask
Harry Winkley	Ruth Wallace
Arthur E. Gordon	Marjorie E. Wright
R. Eva Bickford	Doris E. Waterhouse
Helene W. Boyce	Katherine H. Wiggan
Shirley M. York	

## SCHOOL STREET, EIGHTH GRADE

Raymond E. Chandler	Bernice E. Foss
James J. Collins	Dorothy M. Goodwin
William S. Haley, Jr.	Marion L. Guildford
Edgar T. Marshall	Ruth S. Harrington
Harry J. Martin	Augusta B. Hayes
Daniel J. McKay, Jr.	Viola I. Jacobs
Willis S. Pease	Ellen T. Lane
Robert E. Tebbetts	Ruth M. Pearl
Christina Cavanaugh	Alice M. Rumazza
Irene Dame	Gladys M. Tasker
Ruth M. Mathews	

## MEADERBORO, EIGHTH GRADE

Hazel M. Meader	Charles P. Ellis
Harry Osborne	Carleton E. Evans
Charles F. Meader	

## GONIC, EIGHTH GRADE

Neal Teague	Prescott Campbell
Wilfred Duquette	Hilda Hall
Emile Masse	Lola Meader
George Potvin	Alta Meader
Harvey Warburton	Albertine Rigazio
Gustave Lanoix	Laura Duchesneau
Armand Lanoix	Ethel Remick
Louis Cartier	Elinor Holland
Wilfred Rocheleau	Wilhelmina Perrault

## EAST ROCHESTER, EIGHTH GRADE

Arlene D. Baker
